

SPINNING
Spinning is not only fun but helps children develop necessary motor, social, sensory and cognitive skills. Universal design and ease of use characterize the Inclusive Orbit. Kids of all abilities will enjoy the spinning motion and ease of entry with the platform flush to the surfacing.

SLIDING
Kids love to slide but it's not just fun! Sliding provides a variety of developmental benefits, including balance, coordination, cooperation and proprioception.

COLOR KEY

- BLACK
- GRAY
- AQUA
- LIME
- ORANGE/BLACK
- GRAY/BLACK

COGNITIVE
Play panels offer opportunities for all children to develop skills, have fun and spend time learning outside. Skills such as cognitive planning, mastering new concepts, problem solving and expression. 3-In-A-Row is a way to bring games to the playground and teach cooperation.

CLIMBING
Climbing brings adventure and challenge to the playground while providing necessary developmental benefits such as balance, agility, upper and lower body strength and decision-making skills! When children climb, they develop confidence and take age appropriate risks that help build skills that will help them throughout their lives.

PLAY VARIETY
This design offers the perfect solution for a great playspace and ensures that the necessary and age-appropriate play components are included. With various slides, climbers and spinning events, kids will be able to enhance physical fitness while having fun playing.

SWINGING
The joy of swinging is a childhood staple and kids LOVE it! Best of all, it has so many developmental benefits, including inner ear development, spatial awareness and sensory integration.

1 Park Design and Approval

- Teddy Bear Park is a highly used public park by our residents. City Council has made it their priority to have a safe play environment for their children.
- Council Members wanted to ensure we have an ADA and more inclusive playscape. The final design was approved at the City Council Meeting on February 14th.

2 American Rescue Plan Act (ARPA) funds

- Under the American Rescue Plan Act (ARPA) the funds can be used to support the public health response due to COVID-19. This includes assisting with the mental health aspect of the virus. Parks and other outdoor activities have been deemed an essential part of mental health and well-being of our residents.

3 No Cost to the City or Residents

- The City will not incur any direct costs for the renovations of Teddy Bear Park.
- The entire project will be funded with the second installment of ARPA Funds.

4 Renovation Timeline

- Renovations will begin late summer, early September. We know the summer is peak season for park use. More details will come on actual start date.
